

## 1. Connecting an iPhone to the CIT Wireless network

Click on the **Settings** button

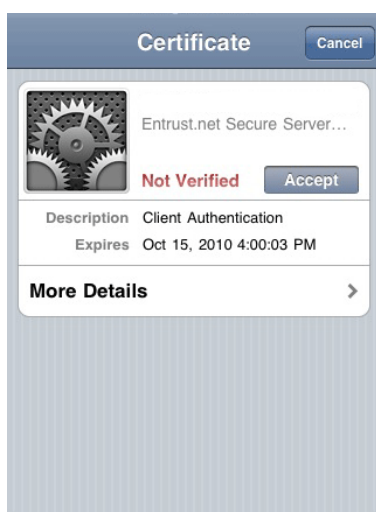

Click on the **Wi-Fi** Option

Ensure that the **Wi-Fi** option is **ON**

Select **cit.act.edu.au** from the available networks list.

Enter your username and password into the prompt, using your standard CIT Staff / Student ID (**First Last** or **CITnnnnnn** e.g. CIT123456) and click ok.

Accept the certificate by clicking on the **Accept** button

**Congratulations! You are now connected to the CIT Wireless system**

## 2. Configuring Your iPhone Browser

Click on the **Settings** button

Click on the **Wi-Fi** Option

Click on the **blue arrow** beside the **cit.act.edu.au** network connection

Scroll to the bottom of the page to the area entitled **HTTP Proxy**

Click the **Manual** Button and set the followings:

**Server:** wpad.cit.act.edu.au

**Port:** 8080

**Authentication:** On

**Username:** Enter your username and password into the prompt, using your standard CIT proxy password, (**First\_Last** or **CITnnnnnn** e.g. CIT123456) and click ok.

**Password:** Your account password

**Congratulations! You are now configured to browse the Internet using Safari.**
