eLearn is a rich online learning environment which gives you a variety of learning experiences.

When you log into eLearn you are presented with a mix of blogs, wikis, forums, links to websites, learning objects, toolboxes, audio, video, quizzes and many others.

It incorporates a Virtual Classroom where you can collaborate with your classmates and teachers. This is much like an online meeting place where you can use chat, share your desktop, show Internet sites and collaborate using the whiteboard.
