

# FINISHING TRADES

## GLASS AND GLAZING

Learn the skills and knowledge to perform a range of glass and glazing jobs, including safely manufacturing, processing, moving, and installing various types of glass and handling glazing materials and components.

### **Course**

**Certificate III in Glass and Glazing**  
MSF30422

## PAINTING AND DECORATING

Equip yourself with the skills you need to become a successful painter and decorator. You will learn how to transform residential and commercial buildings with your specialist skills. You will receive comprehensive training for painting and decorating in all practical and theoretical aspects of the trade.

### **Course**

**Certificate III in Painting and Decorating**  
CPC30620

## WALL AND CEILING LINING

Our plastering course will give you a strong foundation for a career in the building industry. Renovate, extend and create projects with your new plastering skills. You will learn all aspects of dry plastering including installing and finishing plasterboard, fibrous cement sheeting and wet areas.

### **Course**

**Certificate III in Wall and Ceiling Lining**

CPC31220

## WALL AND FLOOR TILING

Gain in-demand specialist skills to become a qualified tiler for residential and commercial construction work. You will learn all aspects of tiling including wall and floor, mosaic tiling and water-proofing processes for both interiors and exteriors.

### **Course**

**Certificate III in Wall and Floor Tiling**

CPC31320

## School-based apprenticeships at CIT

A CIT school-based apprenticeship helps any secondary student aged 15 or over to start an apprenticeship. It lets you get your future career underway earlier and gives you paid work while you train. School-based apprenticeships are all about increasing your options for work and study.

### What is a school-based apprenticeship?

A school-based apprenticeship allows you to continue with your school studies, do paid work with an employer, and some school time studying a nationally recognised qualification at CIT. This means you can start your future career earlier and earn while you learn.

### Why do a school-based apprenticeship with CIT?

CIT is Canberra's leading vocational education and training provider and we've been working closely with high schools, colleges and local Canberra businesses to develop school-based apprenticeships that will kickstart your career when you leave college or help you be up to halfway through your chosen qualification when you start at CIT.

After completing a school-based apprenticeship you could head straight out to work as a highly skilled employee, upgrade the skills you've already learnt by finishing off the next step in your CIT qualification or even combine work and study with one of CIT's many other courses.
